

Multifamily Inventory of Units for the Elderly and Persons with Disabilities

The following notes apply to the contents of this report:

Search Results: The properties are listed in alphabetical order of "City." The properties that were designed to serve the Elderly and/or Persons with Disabilities will indicate "Elderly," "Elderly/Disabled," "Family/Disabled," or "Disabled" in the column labeled "Occupancy Eligibility." The non-subsidized properties will indicate "0" in the column for "Total Assisted Units in the Property." In addition, some of the subsidized properties may not list the total units in the property as this information is not always available to HUD. Data collection is currently underway for the properties marked with an asterisk (*). Therefore some of the information for those properties will not be displayed. We will update this site with that information in the near future. However until such time, please contact the Property Manager/Management Agent to obtain specific information on eligibility requirements and types of accessible features that may be available.

**As of the date of this inventory, the word "accessible" does not necessarily mean that a unit is fully accessible to persons who use wheelchairs or that it contains accessible features for persons with vision and hearing impairments. Many of these buildings were developed before federal law required a certain percentage of HUD-assisted units to be fully accessible for persons who use wheelchairs and have accessible features for persons with vision and hearing impairments. In addition, some of these buildings contain units that have been equipped with some accessibility features at the request of a prior tenant

Occupancy Eligibility Definitions:
